

Fascination of Plants Day
May 18th 2026

Plant Science * Agriculture * Forestry * Plant Breeding * Biodiversity * Nourishment and Nutrition * Plant Protection * Environmental Conservation * Renewable Resources

Everybody is welcome to join this initiative, which started with extraordinary success in May 2012 and continued to grow across the world from 2013 to 2024.

To join the initiative along with schools, farmers, producers, scientists, media and policy makers contact your National Coordinator to assist you with the organization of your event.

We invite YOU to organize around the 18th May 2026 a fascinating and engaging activity related to plants, agriculture and biodiversity with your public, open to all the family. Share and discuss the latest state-of-the-art research and breakthroughs in the plant science world and explore the new potential applications plant science can offer.
